Protect endangered animals

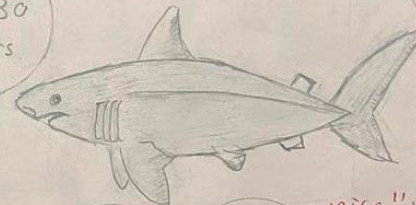

Stop hunting Sharks!

Sharks became an endangered species in 2008. According to the report, the number of sharks are lesser more than half compared to before. There are more than 500 kinds of sharks now a days nowadays

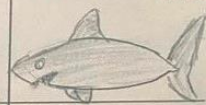

Where do sharks live?

Since sharks has no fixed habitats, almost all deep water areas are their habitats

Lifespan
20-30 years

450g - 21500kg

20cm - 15 metres long

nice :)

Size
20cm - 15 metres

Population
More than 400

nice :)

WHAT PROBLEMS DO THEY FACE?!

Why is the number of sharks ^{dropping}dropped quickly? The main reason is human killing sharks to get their fins for making shark fin soup. Although shark fin soup doesn't have any taste or health value, people are still killing them to make soup.

nice :)

How can we help them?

To save the sharks, we should stop eating the shark fin soup so that the fisher don't need to hunt the sharks

Protect endangered animals

Stop harming the Yangtze Finless Porpoise! 😊

The Yangtze Finless Porpoise is the odd one out of its family as it is the only living freshwater porpoise found in the world. They now live in Yangtze River in China.

A photo of Yangtze Finless Porpoise

What problems do Yangtze Finless Porpoise face in the wild?

The main reason is ^{the} years of environmental degradation, overfishing and water pollution in that area. Yangtze River is their home, so that these problems are bad for them.

What can we do to help them?

To help save Yangtze Finless Porpoise, we shouldn't overfishing or polluted water. And In 2021, the Yangtze Finless Porpoise will be upgraded to a 'First-class protected animal' which is the highest protection level in China.

Protect endangered animals

Stop hunting pandas!

The number of pandas living in the wild has dropped greatly over the past few years. In ²⁰⁰⁸ 2080, there were 1,114 of them, but now there are only 673 of them.

What problems do pandas face in the wild? Panda's home are ^{destroyed} destroyed by people.

Why is the number of pandas dropping so quickly? The main reason is ^{habitat} habitat loss caused by human ^{activities} activities. People always cut down a lot of trees to make paper. ^{Unless} Unless we take actions to help save pandas they will soon become extinct.

What can we do to help them?

To help save pandas, we should not ^{destroy} destroy forests and use less paper.
